About

Dynamic and results-oriented UI/Web Developer with nearly **4.8 years** of comprehensive experience, including 1 year of hands-on expertise with Angular. Skilled in creating visually appealing, responsive websites and client-side applications. Proficient in modern web technologies such as HTML5, CSS3, JavaScript, jQuery, Bootstrap, and Angular 13+. I have demonstrated the ability to design and implement user-friendly interfaces while ensuring cross-browser compatibility and responsiveness across devices. My portfolio, built entirely using Angular, showcases my ability to develop complex applications and user interfaces effectively.

Work Experience

UI Developer

Revalsys Technologies Pvt. Ltd., Hyderabad

Aug 2019 - Present

- Designed and developed responsive and interactive user interfaces using HTML, CSS, Bootstrap, JavaScript, and Angular.
- Developed and maintained Angular components, services, and modules to enhance the functionality and user experience of web applications.
- Implemented business web applications through hand-coding methodologies in HTML5 and CSS3, adhering to W3C standards.
- Worked on the full development lifecycle of projects, from planning and design to implementation and deployment.
- Conducted thorough testing and debugging of web applications to ensure high performance and responsiveness across various devices and browsers.
- Engaged in release management activities, including version control and issue tracking, to ensure smooth and timely releases.
- Collaborated with cross-functional teams, including designers and backend developers, to integrate UI components with server-side logic.
- Optimized web applications for maximum speed and scalability, enhancing user experience and reducing load times.

Technical Skills

- Front-End: HTML, CSS, Bootstrap, JavaScript, jQuery, Angular (13+)
- Design Tools: Adobe XD
- Version Control: Git
- Other: Responsive Web Design, Cross-Browser Compatibility, Problem Solving
